

PACCAR POWERTRAIN

ALL THE POWER AND PERFORMANCE YOU
NEED — COMBINED INTO ONE, OPTIMIZED SOLUTION.

GO FARTHER. GO INTEGRATED.

PACCAR Powertrain maximizes your miles on the road and your payload hauled with one integrated solution. From the durable PACCAR MX Engine to the efficient 12-Speed Automated Transmission and the 40K Tandem Axle, every component is engineered to work together seamlessly. Because we believe that power and performance should go hand-in-hand with reliability and quality.

INDUSTRY-LEADING COMPONENTS

PACCAR POWERTRAIN

IN ONE OPTIMIZED SOLUTION

PACCAR ENGINES

Efficient fuel system

Optimized combustion, reduced friction, and decreased noise

Broad torque curve

Up to 1,850 lb-ft and peak torque at low RPM

PACCAR TRANSMISSIONS

Look-ahead technology

Intelligently executes shift decisions that improve fuel economy and driver comfort

Gear ratio coverage

Overall best for slow speed maneuvering

PACCAR AXLES

Thru-Shaft Pinion Design

High-performance design transfers full engine power straight to the road

WORLD CLASS WARRANTIES

At PACCAR, we believe in taking responsibility for what we create, so we've backed all of our products with some of the strongest warranties in the industry.
